The Hub is the state-designated Regional Behavioral Health Action Organization (RBHAO) serving Southwestern Connecticut—the 14 communities from Greenwich to Stratford. We are a division of the Regional Youth-Adult Social Action Partnership (RYASAP), whose mission is to serve as a catalyst for community change.

Our role is to serve as a strategic partner and resource for the region, supporting and coordinating initiatives related to mental health, suicide, substance misuse, and problem gambling, and liaising between the region and the state. We do this by:

- **Conducting regional needs assessments** — to develop epidemiological profiles and priority recommendations for behavioral health prevention, treatment, and recovery.

- **Supporting Local Prevention Councils** — helping our towns prevent substance misuse and promote mental health through technical assistance, coordination, and mini grants, including the State Opioid Response grants.

- **Organizing Catchment Area Councils** — bringing behavioral health consumers and providers together to identify service needs and make recommendations about treatment and recovery.

- **Convening the Southwest CT Suicide Advisory Board** — to develop regional strategies and capacity to address suicide from prevention through postvention.

- **Supporting the Region 1 Gambling Awareness Team** — to provide education about problem gambling and gaming.

- **Serving as strategic community partners** — advising and providing resources to stakeholder groups such as the Community Health Improvement Projects and Opening Doors Fairfield County, and representing our region on many state-level advisory boards.

- **Leading and supporting advocacy efforts** — educating elected officials and other leaders.

- **Helping address the opioid epidemic** — providing community trainings, Narcan, and awareness campaigns.

Please visit our website, [www.TheHubCT.org](http://www.TheHubCT.org), for resource guides, lists of free peer supports, online screenings, awareness videos and downloadable resources on a wide range of topics, a searchable calendar of events and trainings, and more information.
