GET THE FACTS

1. Those who start drinking before age 15 are 4x more likely to develop alcohol dependency.
2. Each year that teens delay drinking reduces their likelihood of alcohol problems by 14%.
3. Binge drinking = 5+ drinks (men) or 4+ drinks (women) within a couple of hours and can lead to alcohol poisoning and other health risks.
4. The social hosting law makes parents liable for underage drinking that takes place on their property—even without their knowledge.
